

# SDG3 - VET 2nd Newsletter

June 2026

## THE GUIDEBOOK

The Handbook developed provides structured methodologies, teaching strategies, templates, and assessment tools for embedding cultural competence in healthcare education.

## NEXT STEP

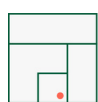

We are currently translating the handbook and making it available for download on our project's [website](#).

## TRAIN THE TRAINER SDG3-VET

Vocational education and training (VET) professionals in the healthcare sector participated in a two-day international Train-the-Trainer workshop in Aarhus, Denmark.

The focus was to equip trainers with the knowledge, tools, and practical skills needed to integrate Sustainable Development Goal 3 (Good Health and Well-being) and cultural competence into healthcare curricula.
