

SDG3 - VET 3rd Newsletter

September 2026

THANK YOU!

As the project comes to an end, we would like to thank everyone who contributed along the way: those who participated in our surveys and training activity, and the external stakeholders who reviewed the Guidebook and shared their feedback.

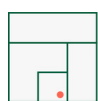

FINAL PARTNERS MEETING IN JEREZ

The consortium met for the final time in Jerez, Spain. During this closing meeting, partners reviewed the project activities and indicators, assessed the work carried out and coordinated the final reporting tasks, bringing together the last contributions needed to successfully close the project.

ALL PROJECT RESOURCES NOW AVAILABLE

All the deliverables developed during the SDG3-VET project are now available on our project website in four languages: English, Danish, Greek and Spanish.
